1	The only problem with a CSA is picking up once a week means halfway through, I still need to go to the store, because a lot of the greens don't keep for more than a couple days. In my dream world, i pick up twice a week!	12/30/2016 12:29 AM
2	I loved that you had my record at the market when I showed up WITHOUT my card.	12/27/2016 10:23 PM
3	13 week flex share works the best for me . It allows me the greatest flexibility for getting the produce for the season.	12/27/2016 6:32 AM
4	flex share fits two people.... that is good for empty nesters	12/26/2016 1:14 PM
5	Saturday pick up a problem.	12/26/2016 12:30 PM
6	Awesome -- love it.	12/21/2016 8:25 PM
7	Perhaps two more scheduled pickups added.	12/21/2016 3:45 PM
8	I loved the Flex Share - being able to pick and choose what I wanted when I wanted was extremely convenient! I would love to be able to pick whatever I wanted for the whole season, instead of for a half season. 8 shares every other week was *almost* too much, I feel like four or five shares every week, while still picking what I wanted, could be better.	12/21/2016 8:32 AM
9	Because of work-related and other travel, the flex share is the only way I can continue as a CSA member. While a medium flex share is a little more expensive than a small share, the fresh produce lasts longer and it works out well for our family. Nothing is wasted.	12/21/2016 7:33 AM
10	When we moved here 2 years ago, I was so pleased to see the flex share. I used to belong to one in PA where we used to live and did not have this option. I missed a few of my pick-ups! And some weeks I just did not need more.	12/20/2016 10:24 PM
11	With just the two of us and our unpredictable schedule, we were not able to utilize all the food we were offered. Not sure how to improve on this!	12/20/2016 7:54 PM
12	Love that it is adjustable to my needs rather than fixed weeks.	12/20/2016 6:39 PM
13	It's still really too much food for one person. I had food spoiling before I could use it all.	12/20/2016 6:11 PM
14	It would be great to also have flexibility as to where I could pick up my share. Given your need for planning, you could require that people have a primary pick up location and then give advance notice(maybe a week before) if a member were to change their location for the week's pick up.	12/20/2016 5:52 PM

Q7 Would you have participated in the CSA if we had not offered the Flex Share? (We are planning to offer the flex share again in 2017.)

1	The various lettuces and mesclun never had tongs for putting in my bag. Of course I wash it before eating it, but I hated having to grab it with my bare hands and knowing everybody else was touching it, too. I asked a few times if there were tongs, but the staff was not at all concerned about the lack of tongs.	1/2/2017 3:49 PM
2	This is the first year where we found more than once that things ran out during the pick up. We found when we came later, there was often not enough items left to have a full unit or what was left was definitely the "bottom of the barrel." I don't remember this happening as often previous years. I realize that there is no guarantee since some quantities are limited, but it was very frustrating.	1/1/2017 12:58 PM

3	as a commercial customer with a large number of shares, the timing of your harvest list was a bit challenging (e.g. on the morning of pick-up) and made it difficult to plan our needs prior to our pickup. on the pricing side, commercial discount would be welcome (10-15%) and might encourage other local food establishments to participate. to offset this expense, we vocally touted our use of your produce to our customers in an effort to raise awareness of your farm and the great work you do. From a pickup perspective, having a few more scale stations available would help alleviate the queues at some of the produce bins.	1/1/2017 9:44 AM
4	We really appreciate being able to pick up two weeks worth of produce when we have missed a week. This flexibility is very important to us. Thank you.	12/30/2016 1:35 PM
5	Communication with the farm, when questions arise are not very good. Emails don't get answered, phone calls aren't returned.	12/28/2016 4:31 PM
6	Wish the selection would be on the farm the same as in Chestertown market every week.	12/26/2016 6:34 PM
7	Staff at the stand were great! Never received any emails during the season about what was available, when the CSA season started, etc. Didn't get any emails until the season was over. I have received emails the last two weeks letting me know what's available and whether you would be at the Chestertown market.	12/26/2016 5:51 PM
8	Very sad the pick up will not be offered at KIFM. It is just too far for my family to make the trek to Kingston or Chestertown :(will be sad to not have this option.	12/26/2016 2:46 PM
9	Dislike the time for farm pick up I wish it went until noon on Saturday	12/26/2016 1:45 PM
10	We would love to have more ginger next year! We would also love to have some fruit in our share - berries, peaches, apples etc.	12/23/2016 10:08 AM
11	Produce was not quite as good this year (farm pick up) as last year. Some of the vegetables were more like seconds (spots, marks, tool marks and small). Intern said the better stuff goes to the market for sale.	12/22/2016 9:07 PM
12	Prefer more mature lettuce and less spring mix. Awfully tired of baby lettuces.	12/22/2016 7:07 AM
13	None @ this time	12/21/2016 3:46 PM
14	My only suggestion would be that the tentative list of items by season be available (either printed and at hand at the farmer's markets or via email) be available in, say, March or April. There is a certain excitement that anticipation of the various spring crops brings, and it's always nice to know what's in store for the new year's produce.	12/21/2016 9:09 AM

17	Less variety this season. Not many fall vegetables.	12/20/2016 7:08 PM
18	The woman who worked the Tuesday Kingstown pick ups was excellent. She kept all the bins full and well laid out. She was also incredibly sweet! Hope she comes back next season!!	12/20/2016 4:24 PM
19	Is there a reason no fruit other than melon is offered? What about corn?	12/20/2016 4:20 PM
20	I felt the variety of produce this year was less than in the past. We received a lot more greens and potatoes than usual.	12/20/2016 4:17 PM

Q11 A “unit” of vegetables is meant to approximate what one would typically find at a supermarket: a bunch of carrots, a pint of cherry tomatoes, a bag of lettuce, or a head of broccoli. The exact weight or volume of a given “unit” of vegetables sometimes differs from one week to the next depending on a number of factors. Of all of the different vegetables you chose to take this season, were there any for which the UNIT size was far too much, or far too little?

1	I was not always able to get there first thing (8:00 am). Often when I got there, even as early as 8:30 am, many of the choices that had been listed in the email were already all gone. This was very disappointing. I look forward to what is listed in the email, and would have to drive to Whole Foods in Annapolis to get a decent organic selection, otherwise. Also, it was rather disconcerting to get there right at 8:00 am with the "vulture" crowd who swoops in and grabs all the good stuff. Would there have been more of the stuff if I drove down to the Chestertown Farmers Market? I don't know, but I was puzzled as to why so often by the time I got to the farm, many items were not available.	1/2/2017 3:59 PM
2	I hope to, but I have heard that the CSA will not have a pick-up point at the Kent Island Farmer's Market. This is the only site that would work for me. Very sad...	12/30/2016 6:47 PM
3	But not a full share. I found it too difficult to make it to the pick up every week.	12/28/2016 5:16 PM

1	We found it more difficult to make the Saturday pick ups this year, and missed a couple completely because of schedules. This makes me wonder whether it is worth continuing. Friday evenings were a better time. I'm wondering if there could be an option of picking up a different day or even later in the day Saturday.	1/1/2017 1:06 PM
2	I was very disappointed with the CSA shares this year. Often the veggies looked dried out and even old. The variety was substandard when compared with last year and also with the other produce displays located in the same farmers market. Each week the variety got smaller and smaller as if working this site was not a high priority.	12/27/2016 7:27 PM
3	I grow most of what the CSA offers. I don't grow watermelon or corn.	12/22/2016 9:28 PM
4	It would be nice to be able to have a flex share that is less than 13 weeks, or a 13 week flex share for less than 5 units (3 units would be good).	12/20/2016 6:21 PM

6	There are three of us and there sometimes was a difficulty dividing it.	12/20/2016 4:40 PM

25	Sometimes arranging pick-up each week around our schedule can be tricky. A weekday morning pick up option would be helpful. It would also be wonderful if the farm had a stand that was open daily similar to Redmans or Priapi, that way if you need to buy more produce than just your share you aren't stuck going to the grocery store or waiting until the Saturday market!	12/23/2016 10:16 AM
